

PREMIUM ESTONIAN SPRUCE · ARCHITECTURAL CLADDING

Coloured Panels

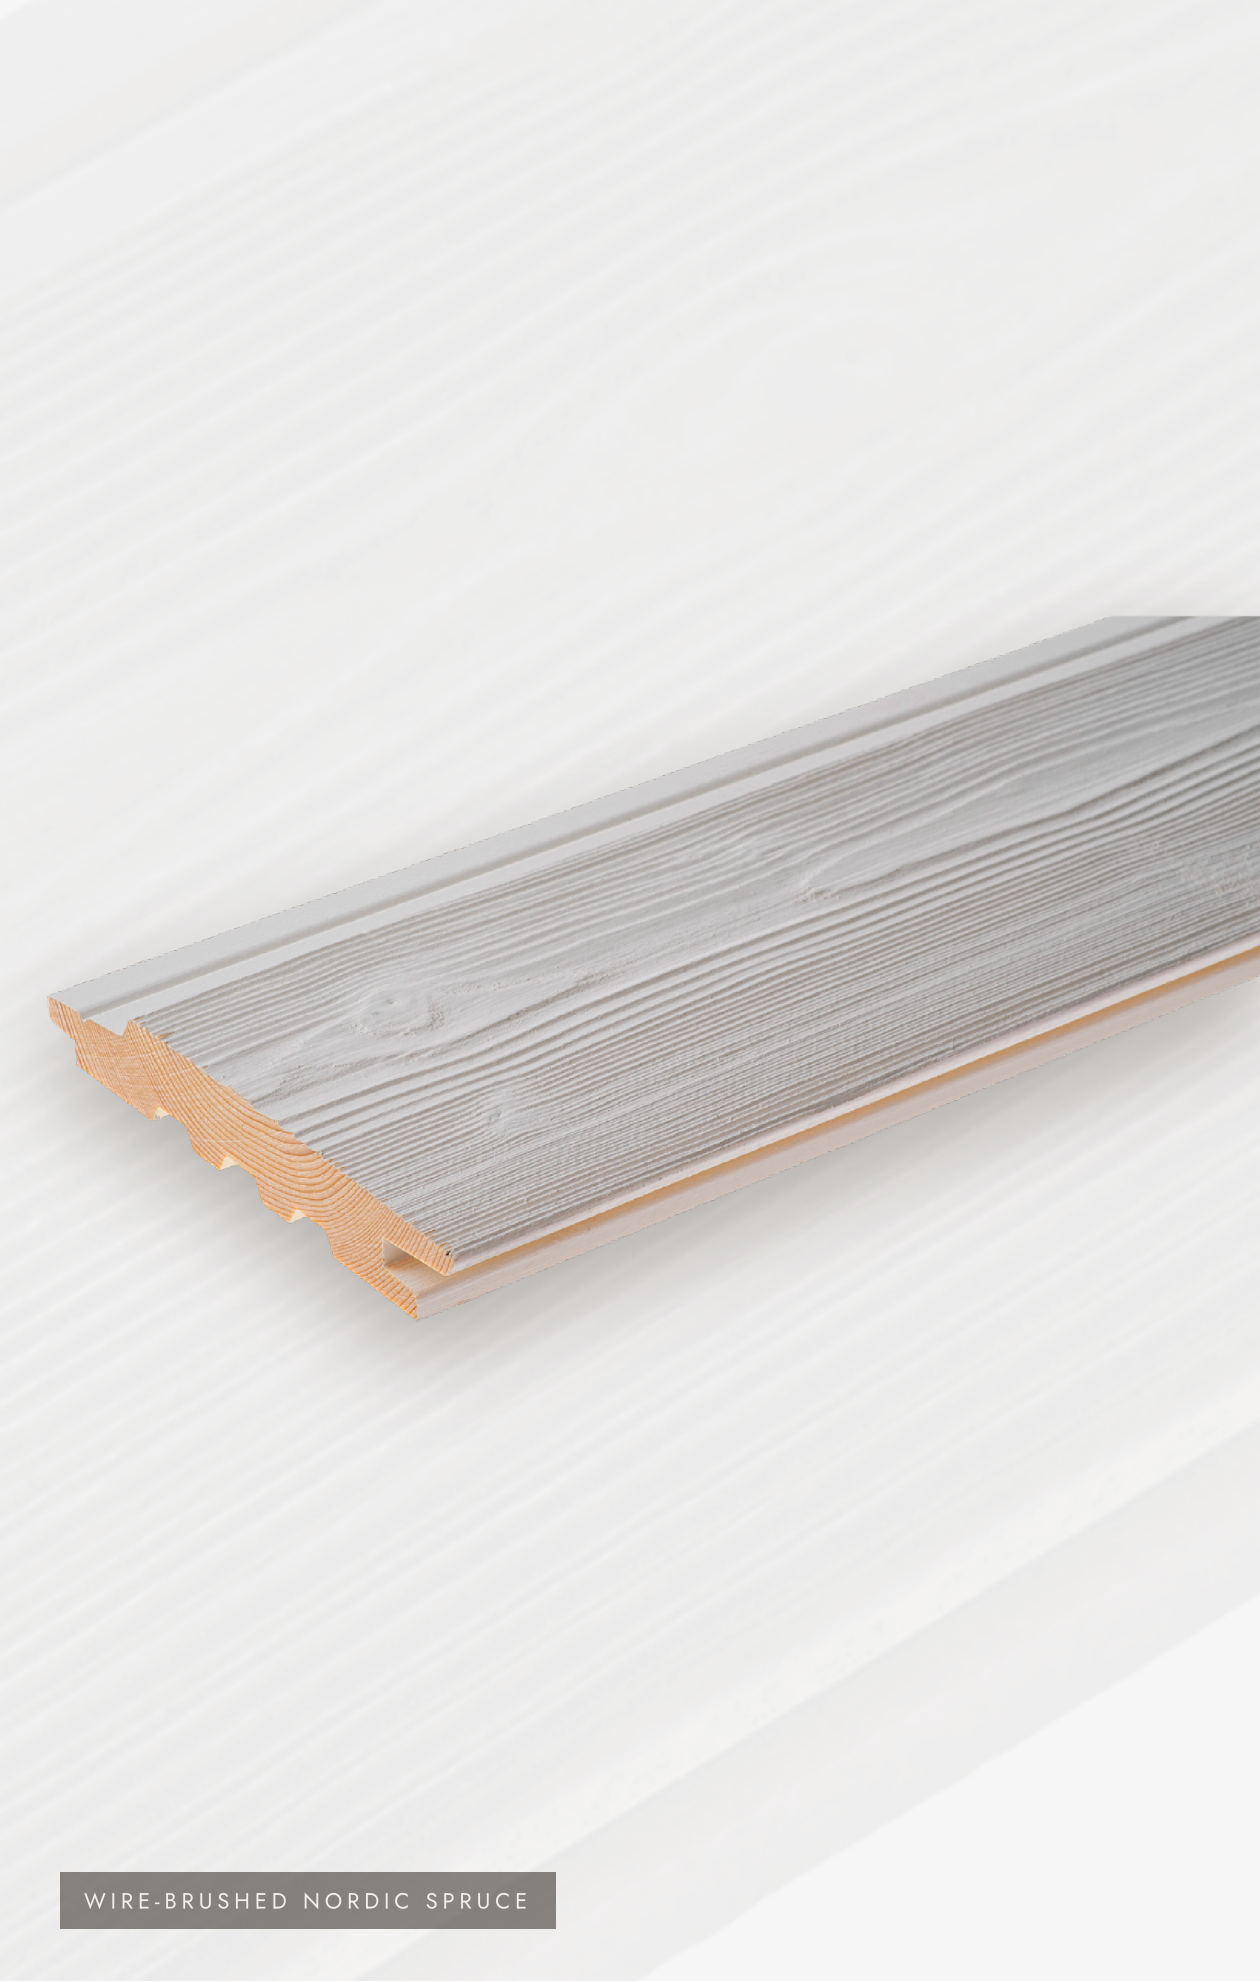

Architectural cladding in real Nordic spruce, finished with advanced European colour technology — where natural timber meets modern design.

COLOUR COLLECTION

Five finishes, drawn from nature

Each finish keeps the wire-brushed grain of real spruce visible beneath a refined architectural colour — from soft Nordic white to deep matte black. Bespoke shades available on request.

WIRE-BRUSHED NORDIC SPRUCE

COLOUR COLLECTION

Swan *Luik*

A soft whitewashed white that recalls Nordic light and Scandinavian calm. The wire-brushed grain stays visible beneath a bright, clean finish — ideal for opening up modern interiors and façades.

	Swan · Semi-translucent · opaque BEST FOR BRIGHT INTERIORS & NORDIC FAÇADES	REF · MA-01

LENGTH	3000 mm
WIDTH	120 mm
THICKNESS	12 mm
SURFACE	Wire-brushed, factory finished
COATING	European architectural, factory-applied
ORIENTATION	Horizontal / vertical
APPLICATION	Interior & exterior
MAINTENANCE	Low maintenance

WIRE-BRUSHED NORDIC SPRUCE

COLOUR COLLECTION

Walnut *Pähkel*

A warm mid-brown with rich, open grain that reads through the translucent finish. Walnut brings natural warmth and depth to any façade or feature wall while keeping the character of real timber front and centre.

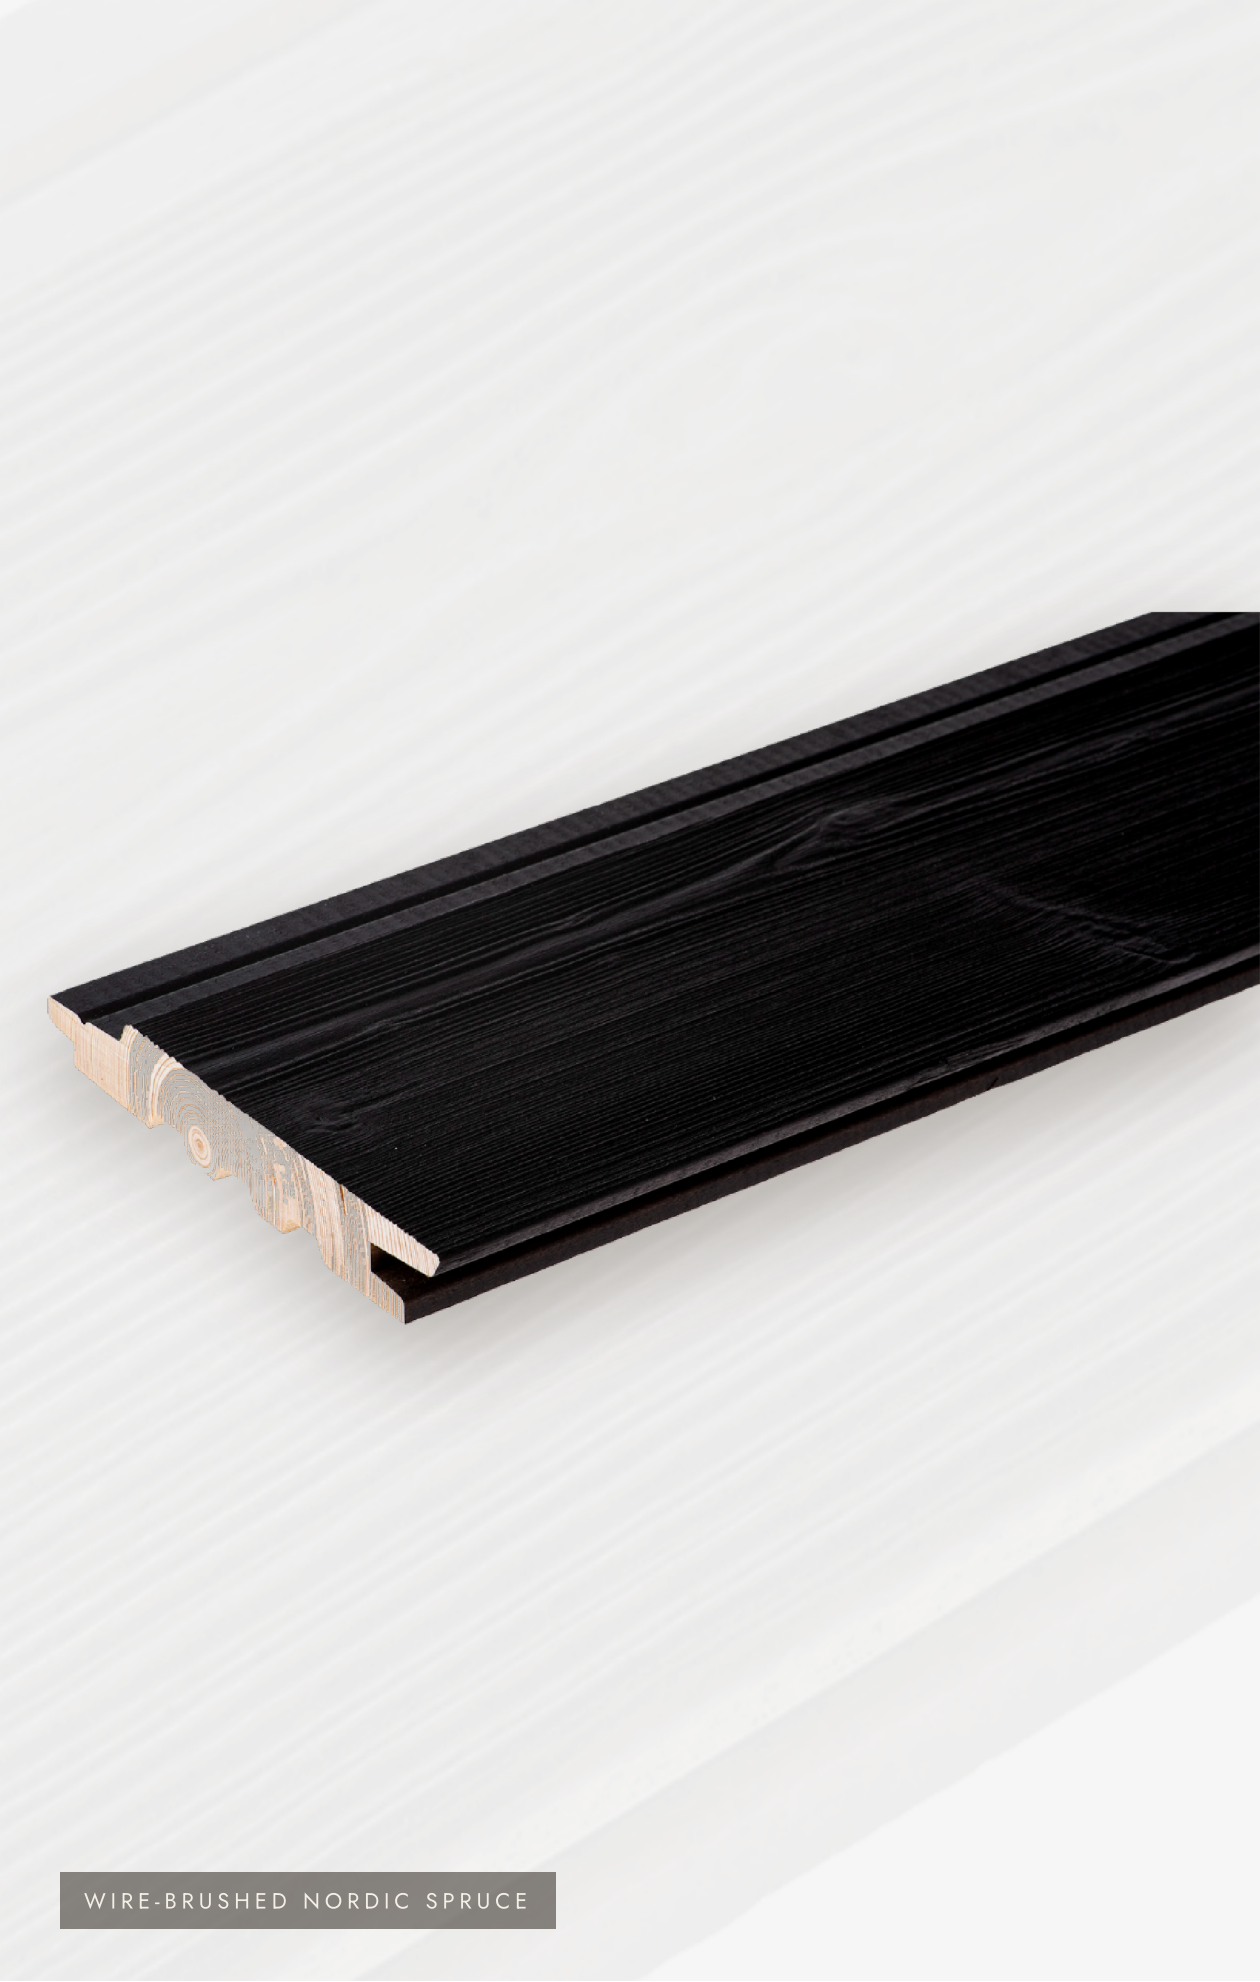

Walnut · Translucent · grain visible

BEST FOR WARM FAÇADES & FEATURE WALLS

REF · MA-02

WIRE-BRUSHED NORDIC SPRUCE

COLOUR COLLECTION

Raven *Rönk*

A deep matte black inspired by charred timber and bold urban architecture. Raven creates dramatic, sculptural façades and striking feature walls, with the spruce grain quietly textured beneath the opaque finish.

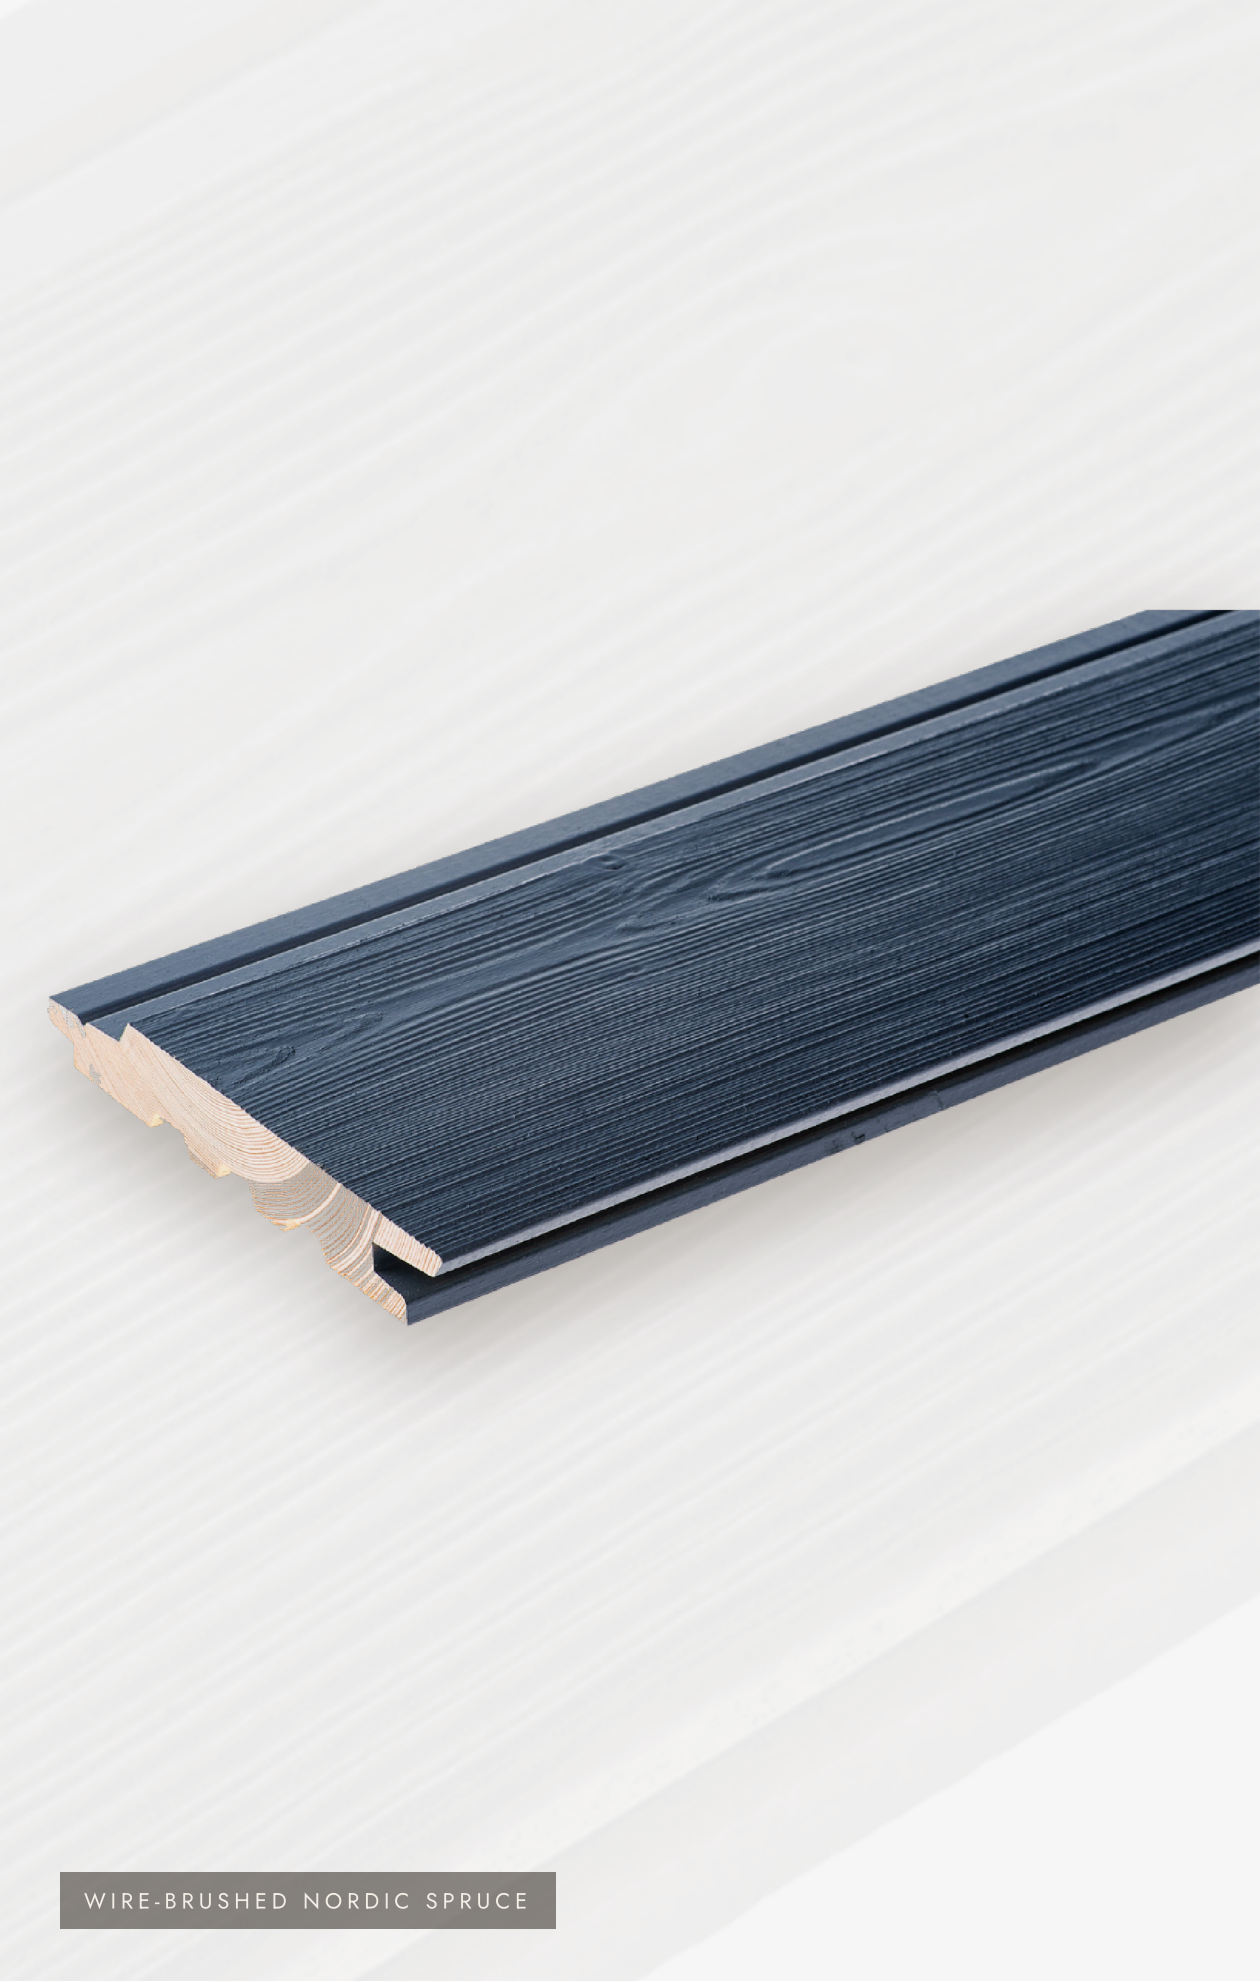

Raven · Opaque matte

BEST FOR DRAMATIC FAÇADES & BOLD INTERIORS

REF · MA-03

PERFORMANCE

Built for the long term

01 Dimensional Stability

Holds straight, crisp lines across large façades when properly processed.

02 Lightweight Construction

Lower weight than most hardwoods simplifies handling and installation.

03 Sustainable Material

Timber stores carbon naturally and supports responsible construction.

04 Architectural Consistency

Factory-controlled finishing ensures colour uniformity across projects.

05 Natural Beauty

Every panel keeps the authentic texture only genuine timber provides.

Spruce panelling, applied overhead

CEILING APPLICATION · HOSPITALITY INTERIOR
